PRESS RELEASE

DAJIN GRANTS INCENTIVE STOCK OPTIONS

Vancouver, BC / TNW-ACCESSWIRE / December 23, 2014 / Dajin Resources Corp. ("Dajin") (TSX-V: **DJI**) announces that pursuant to Dajin's Stock Option Plan the Board of Director have granted 4,500,000 incentive stock options to certain directors, officers and consultants at a price of \$0.05 per share expiring on December 23, 2019. The granting of these incentive stock options are subject to shareholder and regulatory approval.

Dajin's management has recently upgraded their website and incorporated new information relating to our two major holdings, the Teels Marsh project in Nevada, USA and the Salinas Grandes project in Jujuy Province, Argentina. Visit our website often and register for Dajin's Energy Metal Quarterly to keep up to date on our projects and industry related news, www.dajin.ca.

About Dajin:

Dajin is an early stage energy metals exploration company holding a 100% interest in claims known to contain lithium and boron values in the Teels Marsh region of Mineral County, Nevada. These claims, which cover 2,187 hectares (5,405 acres), was the birth place of US Borax Corp's first borax mine. Dajin's recent oversubscribed private placement raised in excess of \$1.2 million for Dajin's exploration programs and for general working capital.

Dajin also holds a 100% interest in concessions or concession applications in Jujuy Province, Argentina that were acquired in regions known to contain brines with potassium, lithium and boron values. These concessions total approximately 100,000 hectares (247,000 acres) with 80,248 hectares (198,000 acres) located in the Salinas Grandes/Guayatayoc salt lakes basin adjacent to concessions held by Orocobre Limited (ORL-T: TSX), who is partnered with Toyota Tsusho.

ON BEHALF OF THE BOARD OF DIRECTORS OF DAJIN RESOURCES CORP.
