PRESS RELEASE

DAJIN ORGANIZES GRAVITY SURVEY AT ALKALI LAKE

June 16, 2015 - Vancouver, BC - Dajin Resources Corp. (“Dajin”) (TSX-V: **DJI**) (OTC: **DJIFF**) wishes to report that the company’s wholly owned subsidiary, Dajin Resources (US) Corp. is organizing an initial gravity survey to be followed by additional geological and geophysical work on Dajin’s 100% owned Alkali Lake claims, in Esmeralda County, Nevada.

The Alkali Lake property, consisting of 138 placer claims covering an area of 1,138 hectares (2,811 acres) is situated approximately 12 kilometers (7 miles) northeast of Rockwood Lithium’s Clayton Valley lithium operation, the only producing brine based lithium mine in operation in North America. Like Clayton Valley, Alkali Lake is a classic, fault bounded closed basin. ([Click here to see map](#))

The gravity survey will be completed by Magee Geophysics Services LLC of Reno, Nevada with the 3D gravity basin modeling being prepared by J L Wright Geophysics of Elko, Nevada. These contractors completed Dajin’s recent Teels Marsh gravity survey and prepared the technical reports in March 2015 which provided favorable results.

The technical information in this press release has been prepared in accordance with the Canadian regulatory requirements set out in National Instrument 43-101 and has been reviewed and approved on behalf of the Dajin by Dr. Catherine Hickson, P.Geo, a qualified person.

About Dajin: (www.dajin.ca)

Dajin is an early stage energy metals exploration company holding a 100% interest in placer claims known to contain lithium and boron values in the Teels Marsh basin of Mineral County, Nevada. These claims were the birthplace of US Borax Corp’s first borax mine.

In South America Dajin holds a 100% interest in concessions or concession applications in Jujuy Province, Argentina that were acquired in regions known to contain brines with potassium, lithium and boron values. These concessions total approximately 100,000 hectares (247,000 acres) with 80,248 hectares (198,000 acres) located in the Salinas Grandes/Guayatayoc salt lakes basin adjacent to concessions held by Orocobre Limited (TSX-T: ORL), who is partnered with Toyota Tsusho.
